

## Kinesis Deuterium Lamps

### Achieve reliable and optimal results with high-performance D2 lamps

- Come with same warranty as that offered by instrument manufacturers
- Pre-aligned and tested to ISO 9001 procedures
- Most comprehensive range—supplying lamps for more than 90% of all leading instruments worldwide
- Same bare lamps are used (where available) as those used in instrument manufacturers' lamps and so offer OEM Equivalent Lamps
- Economical—prices are typically 30% below instrument manufacturers' lamps
- Known for consistent operation, trouble-free performance, and long-term value

ChromConcept offers a comprehensive range of fully traceable and certified Kinesis D2 lamps, delivering a long lifetime, excellent stability, and high output. Each D2 lamp meets the highest quality standards and strictest safety regulations and is fully traceable throughout every step of the production process. Rejection is as low as 0.1%. **Applications include HPLC UV detectors, SOx /NOx analyzers, capillary electrophoresis, UV-Vis spectrophotometers, fluoro spectrometers, and atomic absorption spectrophotometers.**

#### Superior Quality Control

- Kinesis D2 lamps are manufactured in an ISO-accredited facility
- Unique serial number for each lamp
- Kinesis lamps are individually tested
- Test results are recorded against unique serial numbers
- Full traceability of each lamp from manufacturer through to customer delivery

Instrument Brand	Fits Models	Type	Catalog Number	Price ₹
Agilent	1100 VWD, 1200, 1260	Long life	CB911941-11AG	
	8453	Standard	CB911941-12AG	
	1100/1200 DAD (to fit G1315/1365 A & B series detectors)	Long life	CB911941-13AG	
	1100/1200 DAD (to fit G1315/1365 C & D series detectors)	Long life	CB911941-14AG	
	1260, 1290 DAD (8-pin)	Long life	CB911941-15AG	
Dionex™	UltiMate™ VWD 3000, 3000RS, 3100, 3400	Long life	CB911941-17AG	
Dionex/Gynkotek	UVD 160, 170S, 170U, 320, 340S, 340U	Long life	CB911941-20AG
